COMMANDER

We are often being told that Fasttel products just get better and better... So every time we come up with something new, we have a reputation to keep up.
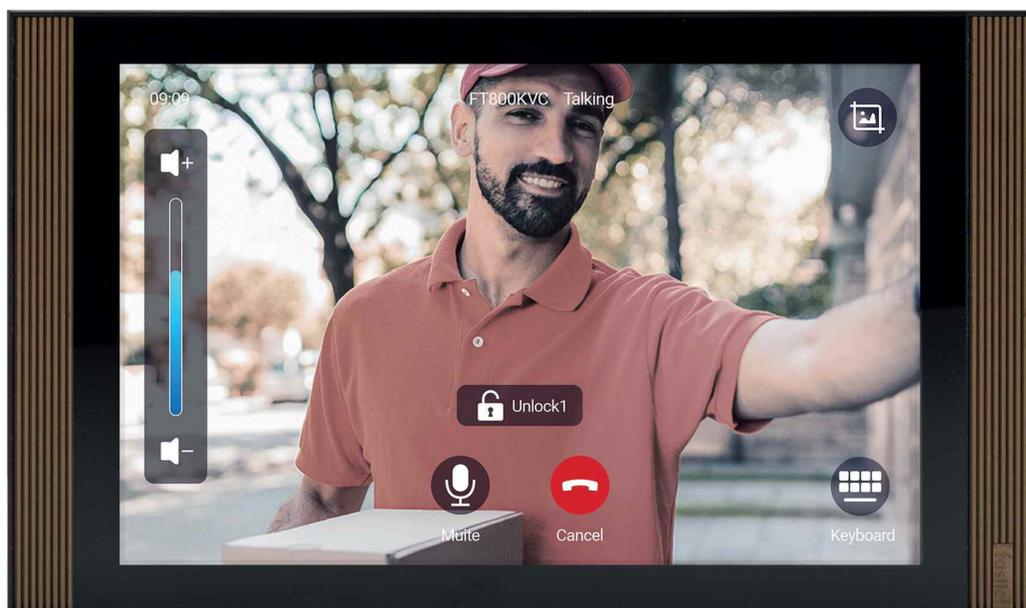

That's why we're thrilled to introduce the COMMANDER – our most innovative product yet!

The COMMANDER is an all-in-one device that has no equal: among other things, it makes recordings of your visitors, displays all the cameras around your property, is a phone, provides a connection to any home automation system, and is an alarm clock. Apps from other parties can also be installed via the open android structure.

SPECIFICATIONS

1. 10" HD 1280x800 touchscreen. Only 12mm thick (4GB RAM + 16GB ROM) + Wi-Fi 6 + Bluetooth.

2. Choose your front finish: aluminium or bronze.

3. Wall mounted or table version available.

4. Visitors are always perfectly visible thanks to the 160° camera built in to every Fasttel IP outdoor unit allowing you to choose whether to grant or refuse entry.

5. Recordings of the visitor are stored on the internal HD and can be used later as evidence.

6. Up to 50 external IP cameras can be integrated. Quad view and manual recording possible.

7. Voice assistance for handsfree control.

8. Four loudspeakers and two microphones deliver an unparalleled audio experience.

9. Integrated SIPserver and hands-free phone with contacts list.

10. Android 12 operating system: installation of third-party apps possible via Google Play Store! Including home automation apps, SONOS, Skype, heating, internet browser, email etc.

11. Adjustable motion sensor for ultimate ease of use.

- ✔ Alarm clock function.

- ✔ Can be used with third-party door phones.

- ✔ Fits into both modern and classic interior.

- ✔ PoE wiring or 12V

- ✔ Automatic detection of ONVIF camera's, display of RTSP camera's.

DIMENSIONS

Depth: 12 mm	Depth: 140 mm

INDOOR STATION

COMMANDER

✔ ## Wall or table model.

The commander can be placed on the wall or on a desk pedestal.

✔ ## All in one indoor monitor.

10" Hd all in one indoor station: videophone, recordings, telephone, camera surveillance, relay activations, alarm clock, Android tablet.

Choose 1 app of your choice as the main app.
The COMMANDER will continue to push this to the fore ground.

✔ ## Standard finish:

Black, white or champagne aluminium
Bronze matte
Bronze rustic matte
Bronze gold matte

✔ ## Extra colour variations:

Choose any RAL color.

✔ ## Place the screen where it suits you!

Network cabling is no longer necessary.
The FT600WPS is connected to a normal power socket.
The WiFi 6 technology does the rest.

Wi Fi 6™

WiFi 6 is designed for better speed, coverage and integration even when there are many devices in the WiFi network.

Pure craftsmanship.

Copper is very difficult to fold, so the production of this 1.6 kg (!) bronze pedestal requires pure craftsmanship.

COMMANDER

GOOGLE PLAY STORE

With the Google Play Store you have access to thousands of apps. 1 app can be chosen as the main app that is always pushed to the foreground.

MAIN SCREEN

Direct access to telephone and videophone function, visitor images, system info, third party cameras and installed apps.

RECORDINGS

Each visit is recorded on the internal or micro SD memory and can be used as evidence at a later time.

TELEPHONY

Hands-free phone with contact list and an overview of all calls.
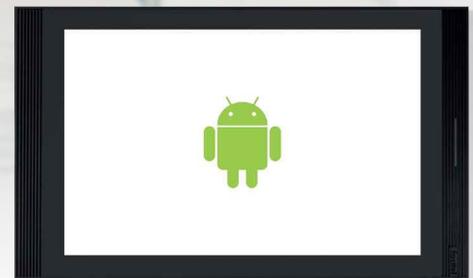

CAMERAS (ONVIF and RTSP)

Up to 50 external IP cameras can be integrated. Quad playback and manual recording is possible.

Click on a camera and it is displayed full screen. You can then scroll full screen again or go back to quad view.

SETTINGS

Personalize the settings both on the screen itself and via the built-in web browser.

OPEN ANDROID 12

Do you wish to integrate your own application or development exclusively? You can! Please contact Fasttel for this.
